More than 20 picturesque ports of call along 1,100 miles of Great Lakes Shoreline.
Madeline Island is the largest of the 22 Apostle Islands. The Island is 14 miles long and three miles wide with a year-round population of 200. LaPointe, established in 1834, is the only town on the Island. Madeline Island is accessible by ferry, private boat or plane. Regular car and passenger ferry service across the 2.5 miles of lake begins in early April with ice break-up and usually continues through the first week of January. During the winter, after freeze-up, cars travel back and forth between the Island and mainland on the “ice road.” At the start and end of the winter when the ice is not safe for cars, passage is by a propeller-driven windsled. Winter ice conditions vary with weather. It is advisable to call ahead for winter crossing conditions.

Clam Lake
The central location in the Heart of the Chequamegon-Nicolet National Forest makes Clam Lake well-situated for year ‘round enjoyment of all the Forest has to offer. The majestic pines and flowing waters create a wonderful escape from the toils of everyday life. Fish the many lakes and streams in the area, golf some of the most scenic golf courses, ski some of Wisconsin’s finest cross country ski trails, mountain bike the miles of off-road track, snowmobile right from your front door onto well-groomed routes, or unwind while patiently waiting for a glimpse of a browsing elk. The Elk Capital of Wisconsin – in 1995, 25 elk were reintroduced into the Chequamegon-Nicolet National Forest in Clam Lake. By the end of 2016, we expect approximately 165 elk in the Clam Lake Herd. Elk can be seen in many habitats throughout their range. Best viewing times are at dawn or dusk. The most popular viewing period is September and October during the mating season when the elk are often feeding in the open. Elk bugling is a special feature of the fall rut usually starting in late August and running through late September.  www.clamlakewi.com
